

JUNE IS... NATIONAL GARAGE DOOR SAFETY MONTH

(The guide above will help you know your garage door)

10 Things to Listen/Look For: **Audio/Visual Inspection – EARS/EYES ONLY**

1. **Unusual noise** - Squeaking, Scraping, Metal on Metal
2. **Sections** - Bowing, dents, cracks or gaps?
3. **Rollers** - Are they showing signs of wear?
4. **Vertical Track** - Bent, bowing or wear in the groove?
5. **Bottom Rubber** - Cracked or weather damaged?
6. **Side/Top Trim** - Cracked or weather damaged?
7. **Track Hanger** - Fasteners should be tight & not pulling away from ceiling.
8. **Spring Cables** - Check for signs of fraying.
9. **Torsion Springs** - NO gaps between the coils.
10. **Hinges** - Inspect around them for cracks, rips or rust.

Your 'Always Faithful' Garage Door Company

100's of children (and adults) are injured every year trying to jump the sensors as the door closes.

Never leave your garage door partially open – It's a security & safety risk.

Visually inspect your garage door often!

-And-

Service your garage door once a year.
